every day in the Press and on the platform and I am not expected to take note of all of them. But if any official notice should be taken I shall take note of it."

SRI T. NAGI REDDI :—" But the statement is from the Central Minister?"

THE HON. SRI N. RANGA REDDI :—" But, let me tell my hon. Friend that so far as this road-*cum*-regulator bridge is concerned, it has not been before the public or before the Government for a very long time. It was only after the anicut was damaged it was enquired into and the Committee that was asked to go into the matter proposed that one of the measures would be to have a road-*cum*-regulator bridge as it would be more economical to combine both. It was taken up expeditiously also."

(Sri T. Nagi Reddi rose.)

MR. SPEAKER :—" We have to cover thirty more questions to-day."

SRI T. NAGI REDDI :—" I would like to make a submission, Sir. Last time we expected that this Enquiry Committee Report would be discussed and hoped that opportunity would be given to discuss it in detail."

MR. SPEAKER :—" I would like him to have a talk about it with the Leader of the House and then come to a conclusion."

SRI T. NAGI REDDI :—" I request the Hon. Minister for Public Works to give us a chance to go into the whole question—of course, in consultation with the Leader of the House—and I am sure that if both of them agree, they can give us at least half an hour to go into the whole question, because the public have been very much agitated over this question. I would therefore request the Government to give due consideration to this request."
